Motivated by global financial events of the recent past, the workshop will showcase the latest research on forecasting rare, but systemic, events as well as monitoring more idiosyncratic risks. Experts from the academic, regulatory, and practitioner communities will come together to discuss the interface between cutting-edge research methods and best-practice risk-management techniques.

**PROGRAM**

**Day 1 – Friday, September 28, 2012**

8:30 – 9:00am Welcome and Introductory Remarks

9:00 – 10:00am Academic Keynote Address: Frank Diebold (U. of Pennsylvania)

10:00 – 10:20am Break

10:20am – 12:00pm Session I. Tail Risk Dependence

*Discussant: Kay Gieseck (Stanford)*

Simone Manganelli (European Central Bank): “VAR for VaR: Measuring Tail Dependence Using Multivariate Regression Quantiles”
