

## Certificate of Forecasting Practice

### Training Forecasting Professionals: Your Curriculum, Our Standards

*The International Institute of Forecasters* (IIF) offers a certificate program with the goal of facilitating improved forecasting practices in organizations.

As the preeminent organization for forecasting scholars and practitioners with over 1,000 worldwide members, the IIF is widely recognized for promoting best practices and advancing the field of forecasting. Our Certificate of Forecasting Practice provides students with superior preparation for forecasting careers.

### Added Value for Students

Upon completion of coursework, students receive a Certificate that shows that they have met the IIF's rigorous standards for competencies in the field of forecasting.

The program includes mandatory and elective topics from existing curricula to meet the IIF's requirements.

As IIF Certified Forecasters, students will have a competitive edge in the marketplace.
